League of Logic – Guide for test takers

Before start taking the test, it is mandatory to read the guidelines carefully

INSTRUCTIONS BEFORE STARTING THE TEST

- Student should attempt the test using a desktop /laptop. The testing software will not work on mobile, tablet or iPad.
- The desktop/laptop must have good internet connectivity, a webcam and an updated version of Web Browser. The student will not be able to attempt the test without these.
- Please use the same device to attempt the main test which you used while attempting the mock test.
- When you resume a test after a case of connectivity/shutdown error, please start the test as you did, earlier, using the same login process. You will have to call the support number to activate your test.
- Please close all other tabs in your browser before starting the test.
- **Make sure your Wi-Fi is on and is stable with a minimum concurrent speed of 512kbps and above internet speed throughout the test.** Test your internet speed on https://www.speedtest.net/
- Do not refresh or close your page or use the back button on your browser.
- If internet connectivity is lost for a few minutes, previous answers selected will be saved. You will have to call the support number to reactivate your test.
- Ensure that the test is attempted on the latest version of browsers - Google Chrome or Mozilla Firefox. Please note, for MacBook, the Safari browser will not work.
- Please ensure that your laptop is fully charged for the test and your webcam is working properly.

BEFORE TAKING THE TEST

SYSTEM REQUIREMENTS-LAPTOP/DESKTOP

- A desktop computer or laptop
- An internet speed of 2 Mbps or greater
- A working webcam

BROWSER REQUIREMENT

- Either Google Chrome or Mozilla Firefox
- Please note, in MacBook, the Safari browser will not work, so use Microsoft Edge

BROWSER CACHE SETTINGS-LAPTOP/DESKTOP

- For most browsers, pressing "CTRL+SHIFT+DELETE" and selecting Clear Cache (for Firefox and Chrome) helps you clear the cookies. It is always advisable to clear browser cache/cookies before starting the test.

STARTING TEST

- For each subject test, you will be provided with a 'Test Code'. You need to use this test code to take the test. The test code will be sent via Email.

- Note down your ASSET Student Id. and Test Code on a piece of paper before clicking on 'Start Test' button.
- Once you click the 'Start Test' button, you will see this page. Enter the 'Test Code' and click on 'Next' button.

CONFIRM

Complete the necessary system checks. Please allow the system to use your webcam or else you cannot start the test. Then, click on "**Confirm**' button.

Click on 'Take Photo' button. This photo is shared with the proctor to verify your identity.
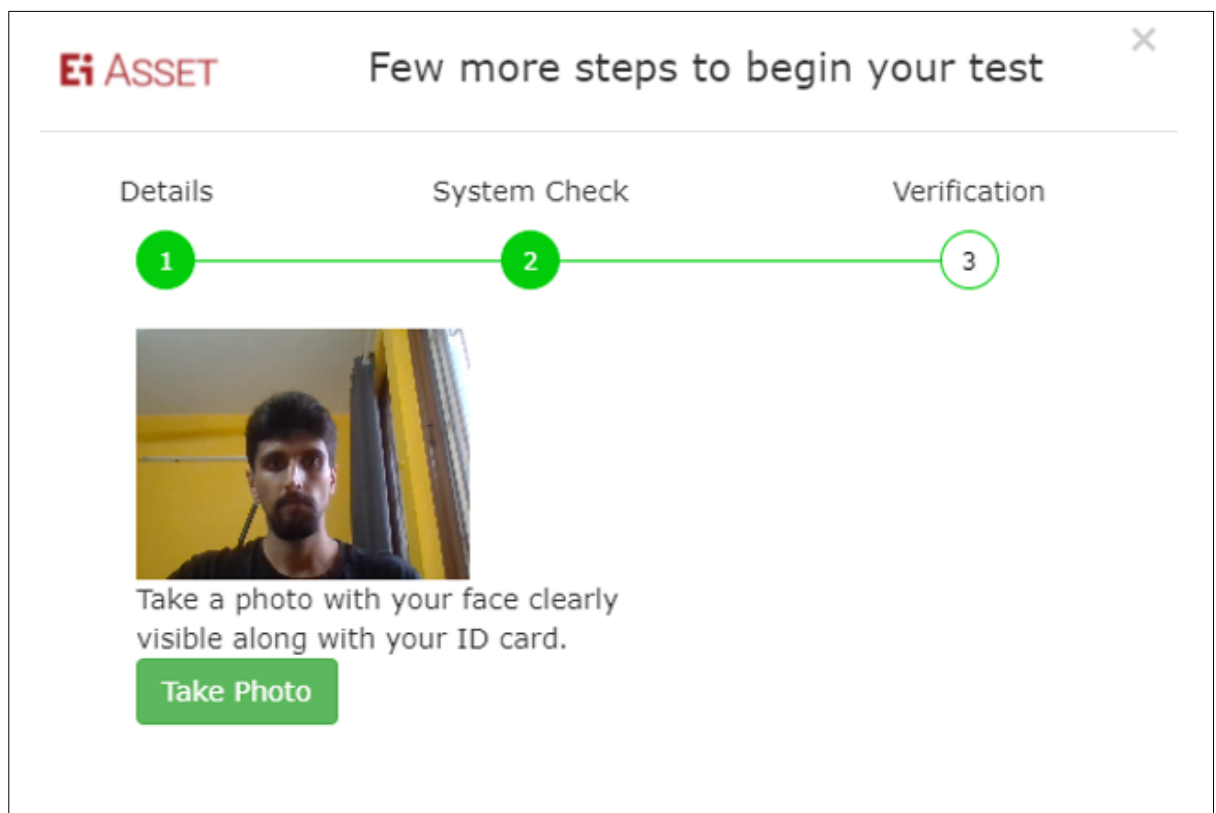

Read and agree to the **terms and conditions**. Then, click on 'Confirm' button.

Once you confirm, you will be shown the instructions for test. Carefully read the test instructions. Once you are done, click on 'Start Test' button.

The test consists of **60 Questions.** The time available is **60 minutes**

- You can see the time remaining for your test at the top of the page.
- You can go to the next question by clicking on 'Next Question'.
- You may go to any question by clicking on the number of that question in the panel to the left of the window.
- You can change your answers.
- If you want to come back to a question later, you may click on 'Mark'. A marked question is highlighted in orange.
- Click on 'End Test' when you have answered all the questions.
- Make sure you have a stable internet speed of 2 Mbps throughout the test.
- If you lose internet, don't worry! Your answers are saved and you can restart the test using the same test code and student ID.
- Do not refresh or close your page and do not use the back button.
- Please do not switch windows during the test.

Start Test

Question Screen

The below image is how your question page will look like.

Clicking on the orange 'Warning' button will show you the warnings that you have received. The system gives you warnings if you leave the test window. Your proctor can also send you warnings if he/she thinks that you might not be doing the test seriously.
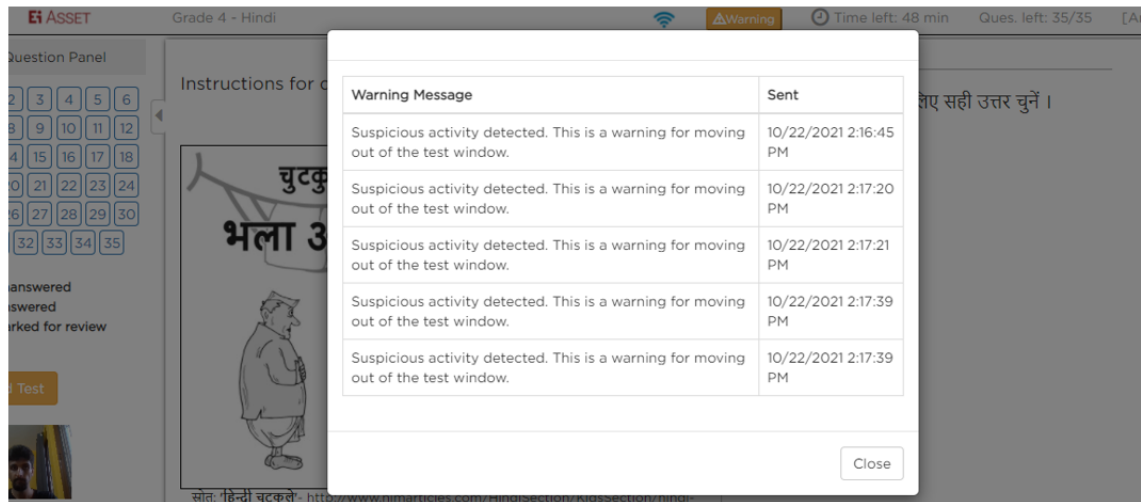

You can attempt questions in any order using the question numbers in the panel on the left of the screen.

You can navigate to the next question (or previous question) using the two buttons at the bottom of the screen.

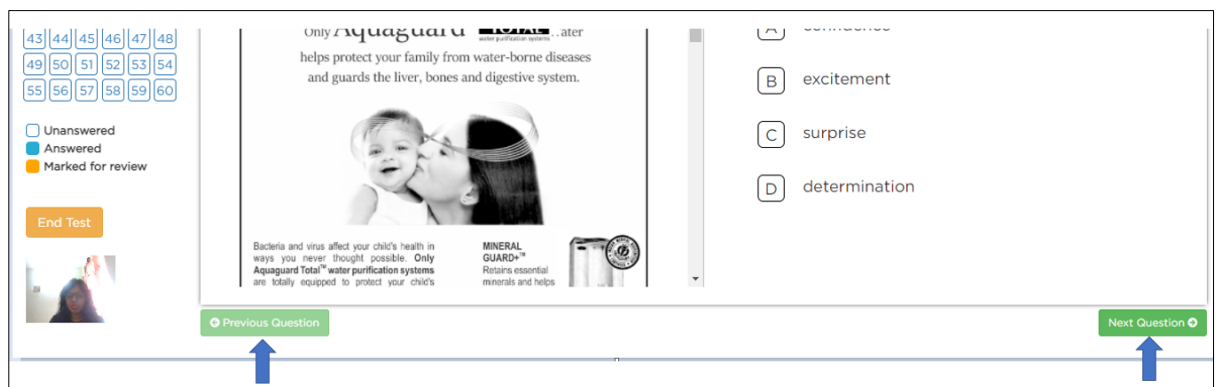

Once you click on 'End Test' button you will be shown a pop-up message with the details of total number of questions you have attempted. Once you click on 'Yes' button your test will be successfully completed.
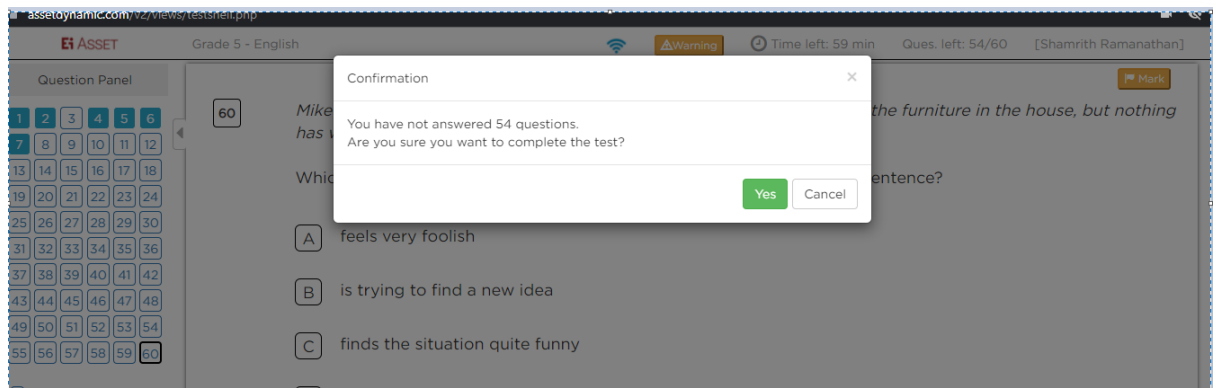

## RESUMING TEST: CONNECTIVITY LOSS

If candidate faces connection error, the timer is paused, and responses are saved. Test will automatically resume from the same point once connection is restored. You will see below message on the screen, when you will try to re-login to take the test. You will have to call the **support number to activate your test. The team will help you to start the test again.**
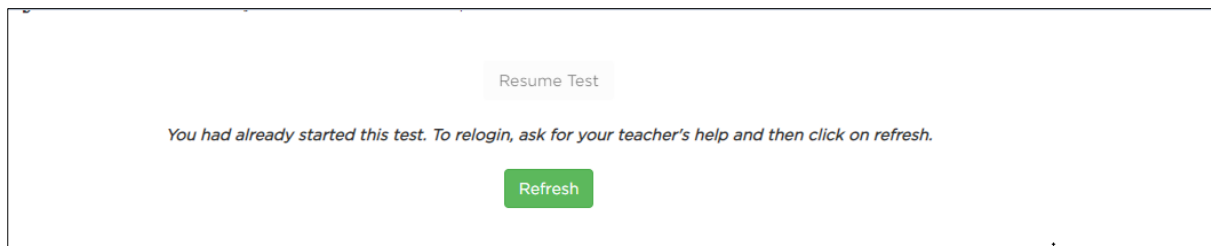

INSTRUCTIONS DURING THE TEST

Test environment rules:

1. No other person is allowed to enter the room once your test starts.
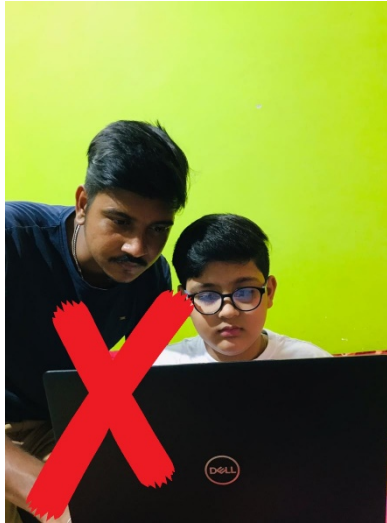

2. The lighting in the room must be bright enough to be considered 'daylight' quality. Overhead lighting is preferred. If overhead lighting is not available, the source of light must not be behind you.
3. Please make sure your face is visible at all times with enough light on your face. Do not look away from the screen or hide/cover your mouth or face
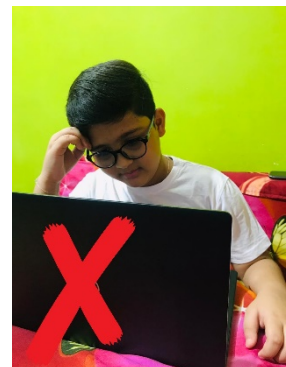

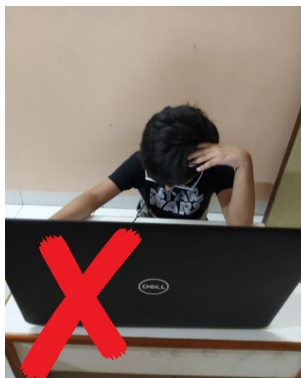

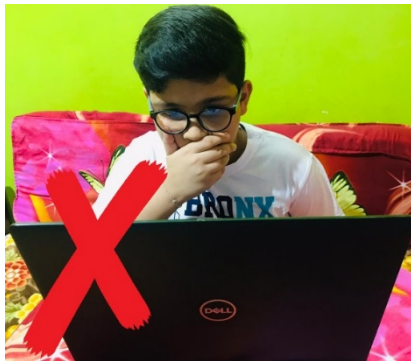

4. You must sit at a clean desk or table.
5. The desk or walls around you must not have any writing on them.
6. The room must be as quiet as possible. No sounds (such as music or television) are permitted.
7. The following items must not be on your desk or used during the test: Books, Calculators, Textbooks, Notebooks and Phones.
8. You may keep the following with you: A water bottle, two sheets of paper for rough work, and pen or pencil for rough work.

Some Do's and Don'ts:

- Candidates are requested to keep attention to the warning messages given by proctor.

- Candidates must be in front of their screen at all times.

- Candidates' activities will be constantly observed, monitored and recorded.

- The Camera should not be covered with any article during the entire test duration.

- Browsing other windows or applications is prohibited. After few warnings, the system will automatically end the test leading to disqualification.

- <u>IMP</u>: Once the candidate clicks 'End Test', he/she will not able to resume the test again. So, do not click this button in between sections or until you have attempted all questions for that particular test. Please review all before submitting your answers.

- Please don't click on the task bar or anywhere outside the test window or any notification which you get on your laptop during the test. You will get few warnings for moving away from the test window and despite that if it repeats, your test will be terminated automatically.

- You must not use headphones, ear buds, or any other type of listening equipment.

- You must not communicate with any other person by any means once you start taking the test.

- You must not use a phone for any reason.

- You must not leave the room during the test for any reason. You can only leave your seat during the break.

- Do NOT press the F5 key or refresh the screen, while you are taking the test, as it will terminate the test.
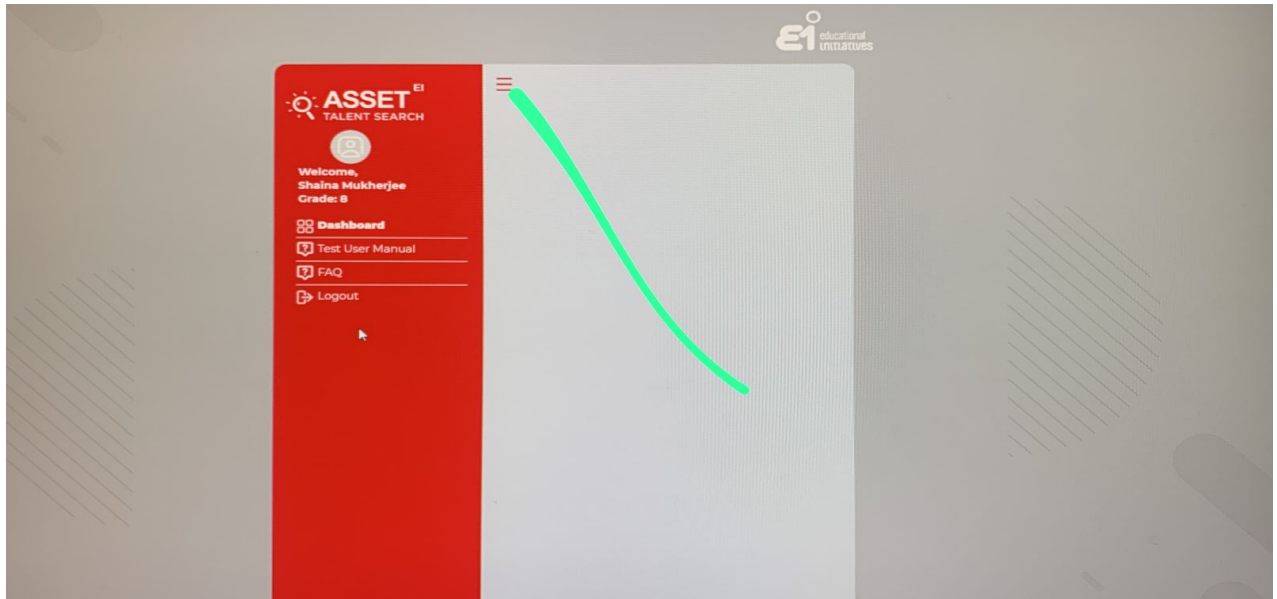

STUDENT REDIRECTED TO HOMEPAGE ON THE TEST WINDOW

After confirming all information on the platform, a student is redirected to the homepage.

This is happening because of privacy settings. In order to fix this, follow below procedure.

*Note: Please also note that this is for **GOOGLE CHROME** on a **WINDOWS OS** alone. You may follow a similar process for other browsers as well.*

Step 1: Click on the three dots next to the user profile in chrome.
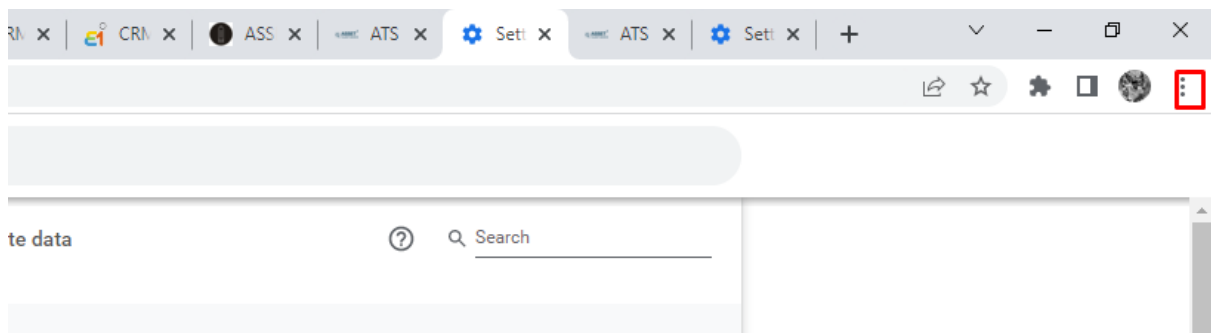

Step 2: Select "Settings" from the drop down.

Step 3: Select "Privacy and Security" on the left-hand side

Step 4: Select "Cookies and other site data" from the display panel

Step 5: Change Setting to "Allow all Cookies" and deselect all the other settings

Step 6: Save changes and TRY AGAIN in a new tab. (Please ensure all the tabs are closed)

SYSTEM CAMERA NOT WORKING

Windows Operating System: The camera is not being allowed access due to various cookies, cache and system settings.

The user is required to clear the cookies and then reset the system setting in Google Chrome.

Note: Please also note that this is for **GOOGLE CHROME** on a **WINDOWS OS** alone. You may follow a similar process for other browsers as well.

How to reset the system settings for Google Chrome

Step 1: Click on the lock symbol at the start of the search bar
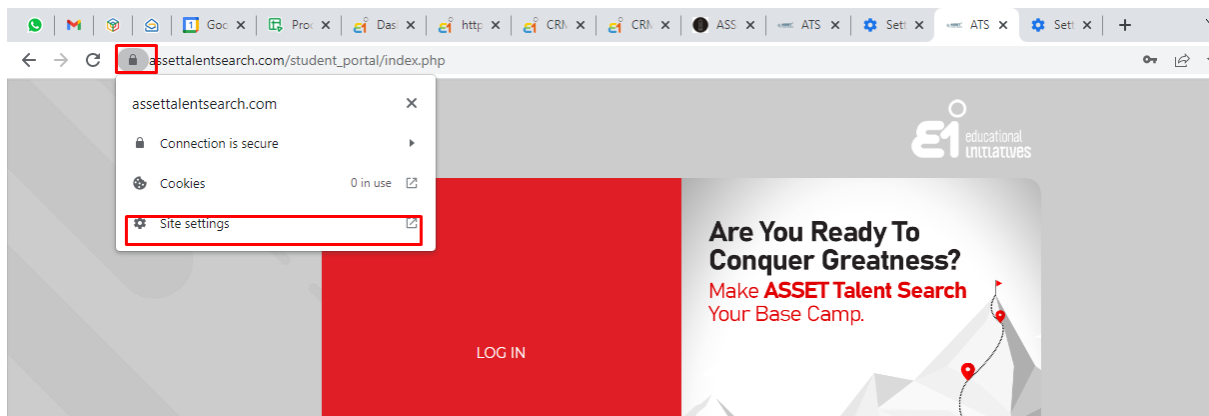

Step 2: Select "Site Settings" from the drop down.

Step 3: Select "Clear Data" on the right-hand side next to usage.

Step 4: Click on "Reset Permissions" after the cookies section.

Step 5: Select "Allow" for the" Camera" option.

All the best!
